

CORRECTION

Correction: An Evaluation of Prediction Equations for the 6 Minute Walk Test in Healthy European Adults Aged 50-85 Years

Michael J. Duncan, Jorge Mota, Joana Carvalho, Alan M. Nevill

In the Results section, there are errors in both equations. Please view the complete, correct equations here:

$$\text{Distance (male)} = (290.6) \times (\text{height(cm)}^{0.525}) \times (\text{body mass (kg)}^{-.317}) \times \text{exponential}(-.009 \times \text{age})$$

$$\text{Distance (female)} = (260.3) \times (\text{height(cm)}^{0.525}) \times (\text{body mass (kg)}^{-.317}) \times \text{exponential}(-.009 \times \text{age})$$
